February 2023

Solar Power Continues to Bloom at Toyota West Virginia

"This is just one more way Toyota West Virginia is embracing alternative energy and reducing our ecological footprint here in the Mountain State... Our environmental team is always working to make our plant more efficient and guiding our efforts to create a more sustainable future." – David Rosier, President of Toyota West Virginia

5 Smartflowers were recently installed at Toyota West Virginia, acting as a visible emblem for the company's commitment to sustainability. The units power the facility's employee services buildings as well as three EV charging stations.

Toyota West Virginia is also home to the state's largest solar array, which can generate 2.6 megawatts of power. Read the full press release [here](#).

Bringing Sustainability to Otre Il Music Festival

A Smartflower soaked up the spotlight at the Otre Il Music Festival in Sanremo, Italy. Installed by our Italian dealer Im-El Osasio in the garden of Villa Nobel, the unit served as a backdrop for interviews with singers, artists and celebrities. Read the Italian press release [here](#).

When Solar Meets Innovation in Oregon

Three Smartflowers were spotted at the Oregon Manufacturing Innovation Center (OMIC) in Oregon, USA. The units are located outside the newly built Additive Innovation Center, intended to be a clear example of Oregon's commitment to innovative manufacturing.

Our Dealer of the Year is... faboro deutschland!

Earlier this month, we presented our German dealer faboro deutschland with the Smartflower Dealer of the Year 2022 award. We would like to take the opportunity to recognize faboro's outstanding efforts and commitment to building the Smartflower brand.

Have an installation, event, or trade show coming up? Have something you'd like to announce? Reach out to our Creative Designer, Sheen Hui, at shui@smartflowersolar.com to be featured in next month's edition of Smartflower Showcase!
