

Smartflower Showcase

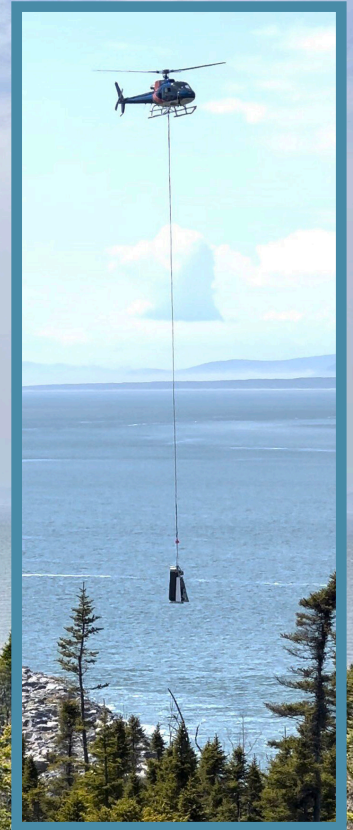

June 2023

Wolastoqiyik Wahsipekuk First Nation Harnesses the Sun with Smartflower

The Wolastoqiyik Wahsipekuk First Nation in Cacouna, Quebec, collaborated with Smartflower partners Nu-NRG and Watt by Watt Inc to bring a Smartflower +Plus to the Putep 't-awt Beluga Observation Site (located within Kiskotuk Coastal Park)! The Smartflower +Plus will provide power for the site's lights, communication equipment, visitor presentations, and much more.

The installation was an exciting one, with the Smartflower being flown up the Gros-Cacouna mountain to the installation site while attached to a helicopter!

On June 13th, the Wolastoqiyik Wahsipekuk First Nation held an official inauguration for its Smartflower, where the unit was successfully commissioned.

BÜCHL HUNGARIA Gets a Smartflower Upgrade

BÜCHL HUNGARIA kft installed its Smartflower at its office in Győr, Hungary, back in 2015. The unit has now gone through a full upgrade and is running in top form! Operational Manager Tamás Lovész said that the company continues to be "very satisfied" with its Smartflower.

All Eyes on Smartflower at Intersolar Europe

From June 14-16, we had a Smartflower on display at our Intersolar Europe booth. Selfies were a common sight, while others took photos and videos of the Smartflower in action. We'd like to thank everyone who visited us- we had a great time connecting with you!

Nordenham's Artistic Approach to Going Green

A new tourist attraction has come to the town of Nordenham, Germany: a Smartflower! Installed by dealer faboro deutschland, the Smartflower stands atop a tall metal pedestal, operating as an artistic yet powerful solar system and a source of shade for passersby.

Have an installation, event, or trade show coming up? Have something you'd like to announce? Reach out to our Creative Designer, Sheen Hui, at shui@smartflowersolar.com to be featured in next month's edition of Smartflower Showcase!
